PROFESSIONAL SUMMARY

Computer Science undergraduate with hands-on experience building full-stack web applications using the MERN stack and AI-powered solutions. Proficient in Java, Python, React.js, Node.js, Express.js, MongoDB, and REST APIs, with a strong foundation in Data Structures & Algorithms.

TECHNICAL SKILLS

- **Languages:** Java, JavaScript, Python, SQL, TypeScript
- **Frontend:** React.js, HTML5, CSS3, Tailwind CSS
- **Backend:** Node.js, Express.js, FastAPI, REST APIs
- **Databases:** MongoDB, MySQL
- **Core CS:** Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems, Low-Level Design (LLD), Computer Networks
- **Tools & Technologies:** Git, GitHub, Postman, VS Code, Figma

PROJECTS

MedScan – AI-Based Medical Report Analyzer [Github](#) | [Live Link](#)

- Built an AI-powered medical report analyzer using React.js, Node.js, Express.js, MongoDB, Tesseract OCR, and Gemini AI, achieving 90% OCR text extraction accuracy for digitizing and analyzing medical reports.
- Developed 10+ JWT-authenticated RESTful APIs for secure report upload, OCR processing, AI-based health insights, and user management, deploying the application with a scalable cloud-based backend.

Prapti AI – Financial Risk & Debt Analysis Platform [Github](#) | [Live Link](#)

- Engineered a production-ready financial intelligence platform using React.js, Node.js, Express.js, MongoDB, and Tailwind CSS, providing real-time financial analysis, debt risk evaluation, and personalized financial planning.
- Developed 10+ secure RESTful APIs with JWT-based authentication and efficient database integration, enabling reliable financial data processing and seamless frontend-backend interaction

Krishi AI – Smart Agriculture Assistant [Github](#) | [Live Link](#)

- Developed an end-to-end AI-powered agriculture platform using React.js, Flask, Neon DB, LSTM, and YOLOv8, integrating machine learning models for crop recommendation, disease detection, and market price prediction.
- Built 15+ secure RESTful APIs with JWT authentication, enabling efficient ML inference, persistent data management, and reliable communication between frontend, backend, and AI services.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science Engineering
Sagar Institute of Research & Technology, Bhopal
CGPA: 7.81/10

Aug 2023 – Jul 2027

ACHIEVEMENTS

- Semi-Finalist, The Economic Times GenAI Hackathon 2026 – Developed ET-Investor Guardian
- Top 10 Finalist, AMD Slingshot Regional Demo Day 2026 (Bhopal) – Presented Prapti AI among selected teams at the regional demo event.

CERTIFICATIONS

- AWS Educate – Cloud Foundations
- NPTEL – Python for Data Science (Elite)
- Postman – API Fundamentals Student Expert
